June 2010

The club tournament for June was held at Amistad Lake on June 12<sup>th</sup> & 13<sup>th</sup> 2010. The fishing was much better than the last time we visited Amistad last year. Looks like there is a lot less pressure on the lake, I am sure that is helping it out.

Helotes Bass Club must have had their tournament this weekend as the wind was relentless once again. Both days we had constant wind well above 20MPH.... The only thing that the wind helped out on was the temperature as it was hot.... The air temperatures ranged from 80-95 degrees & the water temps were 70-84 degrees. I thought the lake water was much warmer than I thought it should be....

We had 14 members and 1 guest that fished this tournament, total fish was 81, total weight was 201.68 lbs and the average fish weighed 2.49 lbs. We had 9 limits for the weekend.....

Saturday: Ngarm Ball led the way with 5 for 16.20 lbs., Charles Parchman had the 2<sup>nd</sup> place stringer with 5 for 15.38 lbs and Felix Huerta had 3<sup>rd</sup> place stringer with 5 for 14.38 lbs.

Sunday: Felix Huerta led the way with 5 for 15.48 lbs stringer, 2nd place was Charles Parchman with 5 fish for 13.81 lbs, & Ngarm Ball had 3<sup>rd</sup> place with 5 for 11.63 lbs.

## Tournament Report:

### President's note:

Fishing at Amistad is always challenging, wind or no wind, but you must agree that the water was absolutely gorgeous. The duck weed was every where and some hydrilla could be found in scattered areas, adding to the new places for these bass to hide. The buzz bait wasn't working for the bass only swirled at it. But thank goodness for the chatter bait and the black power worm.

There were a lot of fishermen on the Mexican side at the Burros and the Zorros. Thank goodness for no pirates, but I did keep an eye open for any unusual activities. It's sad that we won't be able to do that at Falcon.

Good luck to you all,  
Felix
